ONE TEACHER ABSENT.
HOW MANY DECISIONS?

Managing substitutions shouldn't disrupt the school day.

SMART WORKFLOW ALLOCATION & PLACEMENT

Teacher Substitution Management System.

A PRODUCT BY

CORE TECHNOLOGIES

PRODUCT BROCHURE

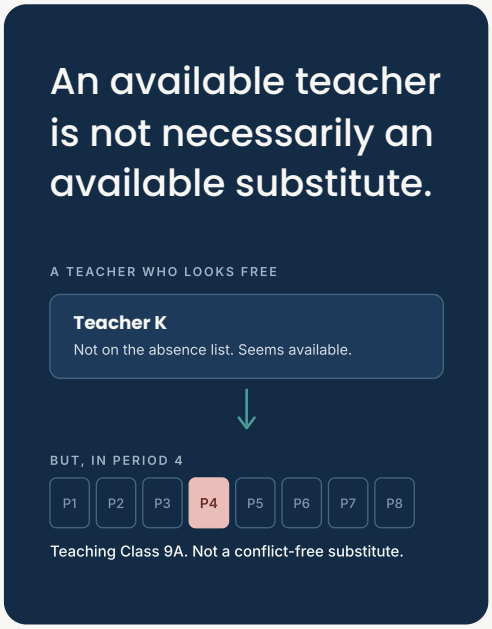

FOR SCHOOL LEADERSHIP AND ACADEMIC COORDINATORS

THE PROBLEM

Every absence creates a chain of decisions.

Coordinators handle this every day. Each step depends on the one before it.

1. **Checking multiple timetables**
   Master and class timetables, side by side.
2. **Finding genuinely available teachers**
   Free on paper is not always free in practice.
3. **Avoiding double-bookings**
   One teacher, one class, one period.
4. **Distributing duties fairly**
   So cover doesn't land on the same people.
5. **Managing last-minute changes**
   Assignments must reach staff clearly.
6. **Maintaining substitution records**
   Past assignments, easy to find later.

Structure makes the chain easier to manage.

THE SOLUTION

Bring structure to substitution management.

1 Select absent teachers

2 Review suggestions, override if needed

3 Print the roster, record kept

	P1	P2	P3	P4	P5	P6	P7	P8
Mon	LECTURE	LECTURE	FREE	LECTURE	DUTY	LECTURE	FREE	LECTURE
Tue	FREE	LECTURE	LECTURE	FREE	LECTURE	LECTURE	DUTY	LECTURE
Wed	LECTURE	FREE	LECTURE	LECTURE	FREE	DUTY	LECTURE	LECTURE
Thu	LECTURE	LECTURE	FREE	DUTY	LECTURE	FREE	DUTY	LECTURE
Fri	FREE	LECTURE	LECTURE	LECTURE	FREE	LECTURE	FREE	LECTURE

Free · Lecture · Substitution duty

Max 2 duties per teacher, per day

Illustrative weekly view for one faculty member.

01 Conflict-aware suggestions
Avoids lecture clashes.

02 Availability tracking
Easy to review each day.

03 Fair workload distribution
Fewer-duty teachers come first.

04 Two-duty daily limit
A defined workload guardrail.

05 Grades 1–12 timetables
Sections 1A to 12E in one place.

06 Printable daily rosters
Ready for the staffroom noticeboard.

07 Searchable history
Past cover is easy to find.

08 Manual override
Coordinators stay in control.

LOCAL.
INDEPENDENT.
PRACTICAL.

School staff → Desktop app → Local backend → Local database

A local desktop and intranet installation. No continuous internet needed for routine planning.

TRUST

Designed for real school operations.
